

I am against the new broadcast service call Low Power FM. I do not want to lose the excellent stations that we now enjoy such as K-LOVE (94.3) on the regular FM dial. That station brings us good, clean, encouraging, Christian lyrics that never broadcast questionable music or language from the announcers. It is a station that is perfect for families worried about the profanity and lack of good morals that are so prevalent in today's schools and society in general. K-LOVE announces wholesome, moral activities for families and teens in our specific communities and surrounding areas. It ministers to people through the wonderful music and the pastors they have on staff. They save lives and they bring people to God! They are exactly what their slogan says - Positive and encouraging! I can let my children listen anytime and never worry about what they may hear. That is extremely important to us. And my kids, ranging in age from 2-13yrs.old, all love this station. It would be absolutely terrible to lose the ability to hear this fabulous station and all that it offers to me and my family. Please don't let that happen! Thank you,
Sincerely,
Lorrie Suffi
